Pleasantwille on Wednesday evening. D. ery's average was 20% materal of 27, and Abbey won the game by 141 noints instead of 211. Abben'

nverage was 25%.

The I. O. of G. T. of Cheutanqua county, N Y., and vicinity will hold a picule at Pleasan Point, on Chantauqua Lake, July t. Two boats have then charteted for the occasion. A goo

about fity members of the Titustille lodge will join the party at Mayaville. The managers of the Eric Railway have is sued an order to all agents on the line of their

road, directing that when twenty five or more persons desice to make an excursion on regular trains from one station to another station on the Atlantic & Great Western or Eric Railway and return, agents are authorized to issue excursion tickets, making a reduction of one third from the sum of the tariff tares, both ways.

A little girl, about eight years of age, went

down on the Oil Creek train on Friday morning. unaccompanied by any person. She reinsed to give suy account of herself, other than she come from Titusville. Her name, she says is Katy and her mother sent her, but she don't know whatfor. The probability is that she has ran away from her home. Mrs. Donnelly, residus mear the Raticoad Depot Oil City, has taken charge of her for the present.

FIRE AT THE PETROLEUM IRON WORKS A fire broke out the blacksmith shop of the Petro s on Thursday evening about I bell rang and a good many citizens hurrled to ment of B y n. Dillingham & Co. They are bre sided for all such emergencies, having fire both lal | all through the shops. But for this fortunate circum ta ice h Petrojeum fron Works probs the building. The steam fire engine, which has cost the city so dear, might as well, for all pacti cal purposes, have been in the rural village o Amoekeag, "way down East." The "no-ble greys" were far away from the cogine, and when they brought it to the spot, they didn't or couldn't get up steam in time to be o any avail. Had a fire got so much headway, in a most soy other thickly built part of the city, we should, were not greater alarmy and offi gine into action, have suffered a configration on an extensive scale. The root of the trouble is, that the city has no engineer to run this engine, but depends on luck and chance. The horse times as possible, for the first twenty, filteen, or even fire minutes, in case of tire, are of the great est importance. We congrutainte the Petroleum Iron Works on their escape. The destruction of their shops would be a terrible loss and calamity to this whole region.

To make the system cool, refreshed and vigor

ensuing election. took place yenterday, and we trade to, on the whole, difficult to

consideracie work was done and a large vote among parties who own good pumping wells.
was polled in all the wards. Meesrs. Ames and They find their tankage filling up and their Johnson, candidates for the Assembly, were sup-ported with great unanimity, Mr. Scott, the third candidate, receiving a very light vote. The contest over the candidates for Sheriff, Treasurer, Prothonousey, District Atterney and Register | past three years, everything is to be in a flourishwas very animated. Reed, for Sheriff, carries the First ward, and Elisworth the other three, having an aggregate majority of 150 in the city at large. The result of the canvass in the county is a matter of conjecture. We are inclined to be ing a reducty there, of 3,000 barrels capacity pe lieve that Mesers. Ames and Johnson are the es for Assembly, and that the control be tween Elisworth, Morris and Reed has resulted in favor of Ellaworth.

t, Edsworth, 179. LOCAL NEWS.

On Thursday a new twenty-five bairel wastruck on Lot No. 70, of the Rynd farm It is wned by Mr. Jacob Walmer.

A a day or two since and old well on the bonk of the creek, on the Complanter farm, which warecently cleaned out, was started up and is now pumping from 100 to 120 barrule per day from the second sand rock. It is doubtful whether it will continue to produce as much as at pres nt for an considerable length of time. The ferm was lessed some time ago by Messrs. Mu thall de Phillips, of Oil City, to whom, it is said the wel-

The turther extension of the producing terri tory on Cherrytree run now appears to be a matter of doubt, as test wells have been put down in all directions without obtaining any grouquantity of oil. Since it was found that the Ar gold & Phioney well on Kage run-which was tested a day or two ago-would prove a fatture. the operators to the vicinity have been at a loss to determine in what direction the oil belt exends, and there are a great many of them that contend it ends in the immediate vicinity of the rug. The failure of the wells lately but down on new territory will have the effect of causing operations on the run to be prosecuted, for some time at least, on a more restricted scale than

hitberto. Chantanqua County, New York, that the wel being sunk at that place has reached the depth rock. At the depth of 544 feet what is known e sewhere as the surface sand rock, was found it is about seventy-five feet thick. From the aurface sand rock the drill passed through lay ers of slate and shale to a depth of 481 feet, who was found the first sond rock, which is thirty test thick. The second sand rock is prouounced by an experienced operator, to be equal to any on the creek. The well in to be tested as soon as it is drilled through the second sand rock Our correspondent says that the "show" is ex sand pump reel being covered with genuine Patroleum, and that the people are get ing excited, but that plenty of land can be lessed

If the lessees will go to work in thirty days. Within the left ion days two new wells have

on the black oil belt on the Pettsburgh and Che ry Run Petroleum Company's tract, Upper Cher lease, Shamburg tract. The yield is thirty five barrele & G. g. General Phys.

The application of the new decolorising procome or processes-for there are several of ank of the Virginia election is declared, and the them, we believe—to Canadian oil, by which it is stretters in the States of Misshalppi and Texas, made as good as American, has not been so genordered. He will then take a summer vecation anally specessful as was auticipated, and at prosent the business in Canada is depressed and time protectly in some quiet part of New Eng. dult in consequence of the fallure of the refineries that are in operation to produce a marketable oil. From this we judge that the processes are not so effectual as they are said to be, or else there is a lack of shill second the referre. The there is a lock of abili smoong the reflects. The Mr. Raymond's auccessor on the New York former theory seems the more probable, as an Times. One interest farmes George William

The Republican Primary Rectings. | with all other processes were also reported suc-The Republican primary meetings for the caseful, the report must be received with some The Republican primary meetings for the caseful, the report must be received with some nomination of candidates to be supported at the allowances. The present state of the Canadian

slow the returns for the several wards in the accounts of it are contradictory. For instance Titueville, and scattering reports by telegraph. the Petrolis correspondent of the Bothwell The election pessed of quietly in the city, but Ness Latter, says that "there is quite a gloom pockets getting empty, and see no means of selling their oil." But he also states that lately "there was asale of 10,000 bbls at \$1.25 (gold)at the wells." However, as has been the case during the ing condition in a few days as will be seen by the following from the same correspondent: "As soon as the Hamilton Company get into operation and sise a large firm to London, nov wrectweek, the producer will get his oil off his hauds, the tanks will be emptied and the temporary

feeling of a downward tendency will disappear The exports from New York from January 1st to June 23d, and from all other ports to Jun-9 h, this year, were 40,398 782 galtons, against 38,671,803 galtons during the same time in 1868 and 26,717,000 gallons some time in 1867.

The Memphis Avalanche is now in perfect sympathy with Governor Brownlow, and publishes a long and exulting leader cla ming the honor of having converted him to its plan

Mr. Hugh Hastings, the editor of the N Y. Commercial Advertiser, po-lively denies the tru b of the report that he is concerned in a movement to run Judge Chase for the Presidency to 1872. He puts to the sume dental for the Hon. Thos. Mar. by. Two of the Democratic Congressmen of Ken

tucky, Mesers. Winchester and Golladay, have come out squarely in favor of repudiating the national debt, and it is believed that the D mo cratic party of the State will make it a plank in its platform at the next convention.

Mesers. Stokes and Senter, the rival candidates ior Governor of Tennessee, are stamping in conert. In a recent speech the former and that be would give the interten dollars if he would state whether or not he stood on the Chicago Rapub lican platform. Mr Senter answered that he did, and put the ten dol train his pocket. Mr Stoke does not think his money well invested.

Senator Fowler has as abushed his reputation

by his recent speaking in Tennessee. He is dete United States. A man can turn a grindstor five moutes, or five hours, or all day, and it is the same thing. So it is with Fowler. urn out a five minutes speech and a five bours speech, and there will not be a bit of diff renatween them, except that one will be longe ban the orn r "

The recent reargestrate of internal revenue listricts under the Jurisdiction of Supervisors required the appointment of some of the Super miles. Among the States included in the reor sanization are Massachusetts, R tode 1st and and Connecticut, forming one district; Alittimia and Mississipp), another, Gaurgia and Floridy a bird, and Louisiana and Arkansas, a fourth No appointment has been made for the thest a smed, other than the officers under whose burge the States were heretolore assigned while for the three last named districts the folowing Supervisors have been respect ted pre lively ' N. D. Stanwood, W. Kryscanowski ad & J. Coukila.

The President has determined upon the appointment of eight cidets at large to the Union States Military Academy at West Porat, which, with two herstofore appointed, completes the first of ten, constituting his quota. The Secretary it War is now preparing the commissions for the The other appointments to th academy, one from each. Congressional district made upon the recommend those of Representadece in Congress, will also be announced in a lew days. These cade is are appointed one year a advince, and will not cuter the acidemy natio

It has been ascort and from an official source that there is no disagreement as report d to-weep Senator Sumper and Secretary Fish 18 lauve to the instructions to Minister Mothy. which the former has seen, and besides the social relations of these gentlemen continue

The Commissioner of Internal Revenue by appointed a commission to examine the sample of locks and seals that are or may be offered by adoption by the Commissioner under section 16 of the act of July 20, 1868, to be used in the in ternal revenue service. The Commissioner wi note the matter under advisement, usual July 15 an as to afford parties desiring to complete as opportunity to send in samples of their link and scale, with a statement of the price for in spection. All samples should be sent to the

The Agricultural Department has lessed its report for the months of May and June. The cturns show a high overage condition of wheat, and ludicate a good prospect of an abundant It should be observed, however, that the size and succulence of the stalk favors lodging or laylog, which is reported as stready some what serious to parts of the South and West Rye, bar ey, and other grafts and generally in tine concluing; the largest increase is in baries and in the States west of the Musics spot, partice larly in Colliorate, while a slight enlargement of area is reported in the Ohio Velley, in New York, and elsewhere. Oats in the Ohio Valle) tiave scarcely been sown to the usual extent, bu greater area has been put in elsewhere in th West. The crop is not quite in average condi-tion in some parts of Ohio, Indiana, It inois, and Minneaula, white in the more Southern States the low temperature of the spring months has erop that generally suffers in those late tudes by the earlier and extreme clera Withis the lest ten days two new wells have been struck on the Chaifield & Tomlinson tract of the Henderson Isrm, Upper Cherry run. One of them is owned by Mr. Charles Hewins, and is yielding twenty fire burrels a day, and she other, owned by Mr. N. B. Futer, is producing elgible to the occasity at some points to the extent of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one other of one-fourth the area, in some cases one of the area of the are Wast, and a short supply only in
